CATEGORIZE

Museum

Qualitative		Quantitative

Qualitative:
↳ Count / Population ①
↳ Count / Area ②
↳ Count Per 100k ③
↳ Top 10 museum ⑤
↳ Number of object acquired over years ⑥

Quantitative:
↳ Subject of museum collections ④

QUESTIONS

1. Where in the world can people easily access museums?

2. How are museums spread across UK?

3. Are densely populated areas better served by museums?

4. What kinds of museums are most common across UK?

5. Which museums are most popular?

6. How has top 1 museum's collection evolved?

COMBINE & REFINE

For the ⑥, Acquisition Over Time in British Museum, I combined Bar chart and Line chart to show the trend. Which year has highest object/collection

TOP10 MUSEUMS In UK

TOP 10 Object in British Museum

FOCUS

① Focus on how museum distribute in each countries.

② Dive into one of the country to have a further investigation about how area and density affect.

③ Dive deeper, list out top 10 and dive into top one visited museum, and show the top 10 object type that have the most.

Author: Ting Shu Hai
Sheet: 2
Date: 10/10/2025
Task: Layout Design 1

OPERATION

Tooltip

↳ Country, Museums Count, & Population, Museums per look

↳ Museums count, Area

↳ LAD. Museums Count, Population

↳ Subject, Museum Counts

Annotation

↳ Highlight countries with highest museum density.

↳ Highlight and explain a bit why boxplot get this visualisation

DISCUSSION

Advantages:
① The idioms are clear and straightforward.

② Users can interact easily as there are no complex annotations.

Disadvantages
① The big title and title for each graphs is too simple and not specific.
② No storytelling, suddenly jump from worldwide to UK.

LAYOUT

TOP 10 Visited Museum in UK.

Acquisition Over Time in British Museum

Author: Ting Shu Hui
Sheet = 3
Date = 11/10/2025
Task = Layout Design 2

OPERATION

Tooltip

↳ Country, Museum Count, Population, Density

↳ Museum Count, Area

↳ LAD, museum count Population

↳ Subject, Museum Count

↳ Year, number of objects.

Annotation

↳ Highlight countries with highest density in global map

↳ Add museum count on lollipop chart

↳ Add highest trend on Line + Bar chart

FOCUS

① Focus on exploring distribution, diversity and significance museums from global to UK.

② Highlights patterns of inequality, such as LAD with few museums despite large populations or areas.

③ Explores how museums interest evolves over time.

DISCUSSION

Advantages

① Clear flow and idioms

② Data normalized for maps
Disadvantages

① Lack of filter

② Lack of text

Sheet: 4
Date: 11/10/2025
Task: Layout Design 3

OPERATION

Tooltip

⤷ Country, Counts, Population, Density

⤷ Count, Area, LAD

⤷ LAD, Count, Population

⤷ Year, number of objects.

Annotation

⤷ give actual values for pie chart

⤷ annotate line chart peak.

DISCUSSION

Advantages

① The idioms are straight-forward, easy to follow.

② Strong insights, visual clarity as using of normalized views.

Disadvantages

① Lack of filter
② Lack of storytelling
③ Hard to catch point, global and UK shouldn't be side by side

FOCUS

① Focus how museums reflect cultural presence, accessibility.

② Giving insight how cultural interest have developed.

③ Focus on UK instead of showing how global has accessibility.
